## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Rejection of claims 31-35, and 37-39 on paper of 2/12/2007 (paragraph 9).

### ***Response to Arguments***

3. Applicant's arguments filed 8/13/2007 have been fully considered but they are not persuasive. Applicant filed 1.131 Declaration has been considered, but not sufficient to overcome the pending rejection. The Declaration attached exhibits lack any date that antedate the patent filing date of the corresponding provisional. The Exhibits A, B, although refer to the use of loose reverse osmosis membranes and or nanofiltration membrane in domestic water treatment, are not clearly directed to the use of a membrane with the claimed properties and operational parameters as in the present claims. In addition, there is not mention of specific NF membranes (SR1, etc.). the Declaration is considered deficient, and the rejection is maintained.

The claim amendment overcome rejection under 112.

### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
